IST BookList (ist.ac.at/booklist) is the library catalog containing an increasing number of books and eBooks available at IST Austria. You will find all book items offered by the library for general use, but it also includes numerous books held by the research groups of IST Austria.

At the moment the library offers around 1,000 books to lend in the fields of biology, mathematics, physics, computer science etc. Library books are freely accessible 24/7 at our physical library located on the third floor of the Central Building at the Guest House. Apart from reference books you can borrow these books by using our Self Checkout System. BookList also lets you administer your library account. It shows you the books you have recently borrowed, allows you to renew your borrowed items and to put books on hold.

Besides the physical books you can also search the catalog for tens of thousands of eBooks licensed for IST Austria employees. The catalog leads you directly to the publisher where you can read or download the items.

The following user guide gives you an overview how to use BookList.
Starting with BookList

You reach the library catalog at ist.ac.at/booklist.

From here you can start e.g. a simple search, watch the Checkout video tutorial or log in to your personal account at BookList. A list of links refers to other library services.
Search & Find

Simple Search
For searching items in the catalog just visit ist.ac.at/booklist. On the homepage you will find a search bar for either searching the whole library catalog or by using the dropdown menu with some special fields like title, author etc.

The search will result in a list of books and ebooks available at IST Austria.
**Advanced Search**

If you'd like to make a more precise search you can use the “Advanced search”. A link at the homepage leads you there.

Choose a category you'd like to search for (e.g. title) and combine it with an additional category (e.g. author).
You can also reduce the hit list by item type (eg. Book, eBook, etc.)

If you are looking for a list of books held by a research group or division go to “Collection” and select the group. (You need to be logged out from your account to be able to use this option)
**Limit to**
You can refine your search results after receiving a hit list. Different categories for limiting the number of results are listed in the left column:

**Holding libraries:**
“Books at IST Austria” lists books of different research groups. These items are not intended for public use, but you can always contact the group.
“e-Library” contains our licensed eBooks
“Library” stands for all books of the publicly available library, you can check out these items

**Item types:**
“Book” includes all physical items
“eBook” contains licensed electronic books

Several different limitations like “currently available items”, “Authors” etc. are possible as well.
Location & Access

Books in the Library

How to Find
To find a book on the shelves of the library please pay attention to the classification system comprises of three-digit numbers (e.g. 57x) tagged on the spine of the books. This number is also shown in the catalog entry of each book at the field “Location(s)” or “Call number”. Each number stands for a special field like “00x” for Computer Science”, “512” for “Algebra”, or “57x” for “Biology”.

Place a Hold
If a book isn’t available at the moment, you can reserve it by pressing the button “place a hold”. For this service you have to be logged in.
Books at the Research Groups

Books held by research groups are listed in the catalog as well. If you'd like to have a list of books of your group please follow the instructions of the chapter Advanced Search. Not all of the books of a research group are necessarily registered.

Books of research groups are listed as Books at IST Austria in the field “Location”. The “Collection” field refers to the group.
**Ebook Collection**

Access to Online Resource

IST Austria is licensing tens of thousands of Ebooks. To reduce your hit list to Ebooks please follow the instructions at the chapters Advanced Search and Limit to. If you’d like to access an Ebook please follow the link at the field “Online Access”. You can find this link both in the hit list display or the single item display.

**Self Checkout**

If you want to check out a book from the library please login at the computer in the library and use the self-checkout tool.

For further instructions please watch the self checkout video tutorial on the homepage of Booklist.

You are allowed to keep a book for 2 months, if you still need it you can prolong this period.
Personal Account

Everybody at IST Austria has an own account for BookList. To login please use your IST intranet credentials.

The catalog BookList allows you to search the book holdings of our library at IST Austria. Here you will find the items of our physical library - located on the main floor of the Central Building - as well as the books of each research group.

You can also look up several collections of e-books that you can easily download on campus.

If you want to suggest a book for the library, don’t hesitate to use the Purchase suggestion tool. Your Library team will try to purchase the book for your use as soon as possible.

If you have any questions do not hesitate to contact the IST Austria Library team.

You can login with your IST Austria user name and the intranet password.
Within your account you can check the status of books you have on loan and renew books before the due day if nobody is waiting for it.
Purchase Suggestion

If you want to suggest a new book for the library, please use the “Purchase Suggestions” tool.

Follow the link “Purchase suggestions”.

Login to your account by entering your IST username and password.
A purchase suggestion form will appear. (If not, please follow the link “New purchase suggestion.”) Just enter the title and some additional information and we will let you know if the book arrived. You can also follow the status of your suggestion at “your purchase suggestion”.
