EZproxy for Safari

1. Please make sure that the Favorites Bar is displayed (Menu → View → Show Favorites Bar)

2. Click on Menu → Show Bookmarks or click on the button “show sidebar”

3. Copy the code from my email with shortcut “cmd + c” for Mac or “strg + c” for Windows

4. Click in the Safari Bookmark sidebar and paste the code with shortcut “cmd + v” for Mac and “strg + v” for Windows.
5. You can rename it “EZproxy”

6. Please shift the “Bookmarklet” to the “Favorites”. Afterwards it is visible in the Favorites Bar.
