IST Austria is growing. Grow with us!

IST Austria is a constantly growing international institute for conducting frontier research in mathematics, computer science, life sciences & physical sciences. We recruit passionate professionals from across the world over all fields who support our goal of excellent research. Located within a beautiful campus on the outskirts of Vienna, we offer multiple opportunities for personal growth in a stable working environment. Get an insight!

Your responsibilities

Communication of scientific topics to the non-scientific public is a central mission of our division Communications & Events. As part of our motivated team, you will create contents related to scientific projects and research at IST Austria. You will write and co-edit different publications and communication formats.

• Topic identification, research, content creation and preparation for several communication channels
• Interact with scientists on campus to create contents translating scientific projects, publications, results and research for the broad public
• Produce contents for reports, websites, events, social media, magazine articles and brochures for various target audiences, press releases, etc
• Manage the complete production process of PR publications, e.g. the annual report, and proofread various texts

Your profil

• University degree in journalism or natural sciences combined with a strong journalistic approach
• Proven work experience in science communication, for example as scientific journalist or science writer
• Excellent language skills in English and German (spoken and written)
• Ability to understand complex scientific information, theories and practices, combined with very good verbal expression
• Target group-oriented writing style, textual and style confidence
• Structured and cooperative working method, strong team player
