Project Technician
Research Group Novarino

Full Time (40h/w) – Limited for 1 year (extension t.b.d.)
Klosterneuburg (Vienna), Austria
€ 2,000 * gross/month

IST Austria is growing. Grow with us!

IST Austria is a constantly growing international institute for conducting frontier research in mathematics, computer science, life sciences & physical sciences. We recruit passionate professionals from across the world over all fields who support our goal of excellent research. Located within a beautiful campus on the outskirts of Vienna, we offer multiple opportunities for personal growth in a stable working environment. Get an insight!

Your responsibilities

The Novarino Group studies the function of epilepsy, intellectual disability, and autism-causing genes at the system, cellular, and molecular levels with the goal of providing a framework for the development of effective pharmacological therapies and the background for the identification of new pathological genetic variants.

• Lab organization and ordering, including maintenance of reagent databases and training of new lab members
• Support cell culture operations, including handling of stem cells and stem cell derived brain cells as well as freezing/thawing/storage of cells
• Support molecular lab operations, including standard molecular techniques (e.g. PCR, DNA & RNA extraction)
• Development of novel stem cell applications/technologies including CRISPR/Cas9 techniques as well as various screening approaches

Your profile

• University degree in Life Science or related field
• Proven experience in standard molecular techniques (e.g. PCR, DNA & RNA extraction); experience in novel stem cell applications/technologies including CRISPR/Cas9 techniques of advantage
• Excellent command of English (working language)
• Proactive personality and solution-oriented approach
• Strong organizational and problem solving skills and reliability
• Ability to work independently, learn quickly and multi-task
• Excellent communication (oral and written) and attention to detail
