

Mark your favorite publications

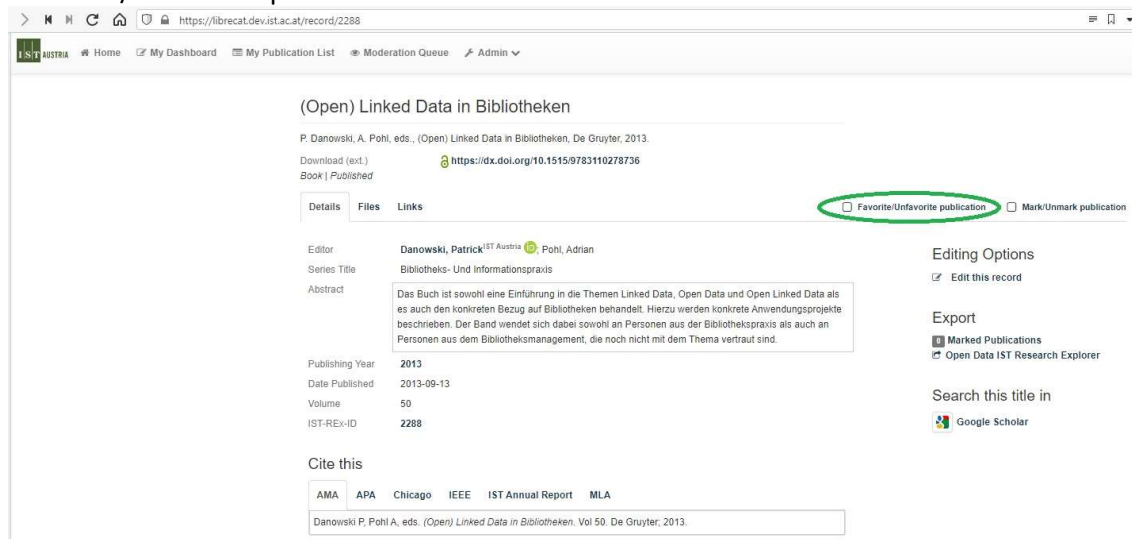

Open the IST Research Explorer (<https://research-explorer.app.ist.ac.at>). You should be automatically logged in via Single Sign On, if not please login:

Go to “My Publication List” to see all your publications.

If you want to mark a publication as favorite, open it and just click the tickbox “Favorite/Unfavorite publication”:

Now go back to “My Dashboard” and there is a second tab where all your favorite publications are listed. If you want to remove an item from the list, just remove the check on the tickbox.

On the official IST Website, you can embed the whole publication list or only your selected ones by telling IST Communication Team (website@ist.ac.at).

Let us know if you need any support – we are happy to help!
