Artist Residency @ Institute of Science and Technology Austria

Residency Outline

- Three months long residency (optionally extendable to up to six months);
- Stipend of EUR 4,500,- for 3 months (partial amounts after achievement of sub-goals possible);
- Total Production Budget of EUR 5,000,-;
- Support will be provided in interacting with internal and external contacts in order to create a creative project / piece;
- Preferably, applicants will reside in the Klosterneuburg/Vienna region during the entire period of the residency;
- At the end of the residency, the resulting project/s will be presented in a public exhibition or event held at ISTA, the upcoming VISTA Center or with an external partner;
- Results of the residency could be, but are not limited to: Art pieces, design projects, video installations, interactive pieces, photography, etc. and will be defined with the selected artist.
- Start of the residency can be chosen

The Residency

ISTA strives to be on the forefront of science research, including fostering interdisciplinary approaches including Art, Science, Design and Technology. Applicants are not restricted to a specific creative genre and specifically artists creating work that pushes the boundaries of their field are encouraged to apply.

The program invites established as well as emerging Austrian and international artists for up-to-6-months residencies, to realize projects engaging in deep conversations with the research of the institute.

We strongly encourage artists from underrepresented groups to apply.

Your Time at ISTA

As an artist in residence, you will be welcomed on campus and will collaborate closely with our research groups and individual researchers, exchanging information and knowledge. Throughout the residency, you will be presented with opportunities to exhibit and share your work through multiple channels such as exhibits, events, talks and articles. Artists in residence push for new and communicative perspectives on the research conducted at ISTA, adding new critical, reflective, innovative, expressive and/or playful viewpoints. During the residency, you work actively and independently, self-organized on research and development of your creative projects. Presentation of sub-goals is expected.

The Artist Residence is under patronage of the Vice President for Science Education and the institute’s exhibition curator, who will be your main point of contact.
Application

The application phase ends on Sunday, October 9th, 2022 at midnight.

Please reach out to us via email, artistresidency@ist.ac.at and include the following materials:

- A short biography/CV.
- Link to website or a pdf-portfolio. (max. 10 MB)
- A glimpse of what you are planning for the residency, this can include text, sketches, other forms of visualization and even requests for specific research groups you’d like to exchange with. (max. 10MB)
- A signed consent form, which allows our selection committee of external experts to receive and evaluate your application.

Selection

Selected artist(s) will be notified a few weeks after the submission deadline.

Data protection notice

ISTA is processing the personal data of your application for the purpose of the management of your application to the Artist Residency 2022. ISTA processes your personal data based on the legal basis of contract initiation and performance of contract according to Art 6 (1) point (b) GDPR. A Residency Selection Committee consisting of ISTA faculty and committee members outside of ISTA that are experts in the cultural and artistic sector will decide on the winner of the Artist Residency 2022. For this purpose, ISTA will provide your personal data to the committee members outside of ISTA on the legal basis of your consent Art 6 (1) point (a) GDPR. You can withdraw your consent at any time with effect for the future. Please note that in case of withdrawal you can no longer be considered for the Artist Residency 2022, as the committee members need the personal data of your application to consider your application for the Artist Residency 2022.

We store your data for 7 months after the end of the application process and delete it after such period. We will store your data beyond that period only if you consent, if we further process your data based on another legal basis or if it is necessary for the completion of possible legal disputes, in which the data is needed as evidence.

Further information on data protection and in particular on the rights of data subjects can be found on ISTA’s privacy policy at https://ist.ac.at/en/data-protection/
